

**Effective, Safe and Economical Bio-Protection for Cannabis Operations**

The 1600 PAC is an air purifier for highly sensitive environments at risk of bio-contamination such as cannabis drying, trimming and packaging areas. It contains a medical grade HEPA filter, UV Germicidal lights and photocatalytic generators that provide multi-level purification of air passing through the unit plus sanitation of 3,000-14,000 cubic feet of space. The unit is portable, quiet, lightweight and has a small footprint to operate in occupied spaces, dispensaries or processing areas. The versatile 1600 PAC can be used as an air scrubber to re-circulate and purify air or create positive or negative air pressure environments.

**Labs and universities confirm the following results of photocatalytic purifiers**

**AGRIAIR PURIFIERS SEEK & DESTROY**

- 99%** surface bacteria, virus, and microbes
- 99%** E-Coli and Salmonella
- 97%** airborne bacteria and mold spores
- 85%** odor and VOC reduction

CONFORMS TO UL STD 507  
CERTIFIED TO CAN/CSA STD  
C22.2 NO. 113-M1984

**1600 PAC with PCO module**

<b>Airflow</b>	300 - 1500 CFM, variable speed blower
<b>Power Requirements</b>	1600 PAC: 115 VAC/60 Hz/10.8 amps PCO module: 115 VAC/60 Hz/4 amps
<b>Recessed Controls</b>	1600 PAC: high/OFF/speed control switch, variable speed control, WC" gauge, UVGI lights ON/OFF switch, Hour meter PCO module: ON/OFF/Timer switch, (2) Hour meters, 0-12 hr timer switch, Low/High/Med switch
<b>Filtration</b>	1600 PAC: 24"x18"x12" HEPA Filter 99.99%, 0.3µ, 24"x16"x2" MERV 11 pleated filter PCO module: 24"x16"x2" MERV 11 pleated filter
<b>PCO Generator</b>	9" photocatalytic generator, 14" photocatalytic generator
<b>Housing</b>	epoxy powder coated aluminum, polyurethane push handle, (4) 3" casters
<b>Size/Weight</b>	26"W x 20"H x 48"L, 150 lbs.
