

2200 PG Air Purifier with HEPA & PHI technology

Effective, Safe and Economical Bio-Protection for Cannabis & Indoor Cultivation

The AgriAir 2200 PG is used to purify the air in highly sensitive environments at risk of bio-contamination such as cannabis flowering rooms, drying, trimming and packaging areas. It provides HEPA filtration and PHI technology to distribute enough oxidizer plasma to maintain a high level of air sanitation and odor control at their source, in 6,000-16,000 cubic feet of space. The oxidizer plasma provides bio-protection 24/7 without the use of chemicals or ozone. This unit can be used to create positive pressure, it is portable, easy to install and scalable to any size operation.

Labs and universities confirm the following results of photo hydro ionization purifiers

AGRIAIR PURIFIERS SEEK & DESTROY

- 99% — surface bacteria, virus, and microbes
- 99% — E-Coli and Salmonella
- 97% — airborne bacteria and mold spores
- 85% — odor and VOC reduction

CONFORMS TO UL STD 507
CERTIFIED TO CAN/CSA STD
C22.2 NO. 115-M1984

AA2200PG

Airflow	300-1600 CFM, variable speed blower
Power Requirements	115VAC/60Hz/11.6 amps
Recessed Controls	High/OFF/Speed control switch, variable speed controller, change filter light, (2) generator ON/OFF switches, (2) hour meters
Filtration	MERV-9 polypad pre-filter, 24"X24"X11.5" HEPA 99.99% filter
PHI Generator Cell	(2) 14" photo hydro ionization cells
Housing	aluminum & galvanized housing with epoxy paint, (4) rubber handles, (4) 5" casters
Size/Weight	35"L x 26"W x 31"H; 140 lbs.
