

1000-3 HO Air Purifier with IO technology

Effective, Safe and Economical Bio-Protection for Cannabis & Indoor Cultivation

The Agriair® 1000-3 HO air purifier uses Ionic Oxidation (IO) technology to generate friendly oxidizer plasma which seeks and destroys odors at their source and bio-contaminants in indoor commercial cultivation facilities. Our energy efficient purifier produces and distributes oxidizer plasma naturally generated from humidity and oxygen in the surrounding area. The 1000-3 HO is sized to sanitize environments 3,000-12,000 cubic feet of flowering, drying and packaging rooms. It's portable, easy to install, scalable and ready to plug-in and go.

Labs and universities confirm the following results of Ionic Oxidation purifiers

- 99% — surface bacteria, virus, and microbes
- 99% — E-Coli and Salmonella
- 97% — airborne bacteria and mold spores
