

### Effective, Safe and Economical Bio-Protection for Cannabis Operations

The 1200 PAC is an air purifier for highly sensitive environments at risk of bio-contamination such as cannabis drying, trimming and packaging areas. It contains a medical grade HEPA filter and UV Germicidal lights providing a multi-level purification of air passing through the unit plus sanitation. The unit is portable, quiet, lightweight and has a small footprint to operate in occupied spaces or processing areas. The versatile 1200 PAC can be used as an air scrubber to re-circulate and purify air or create positive or negative air pressure environments.

### Labs and universities confirm the following results of photo hydro ionization purifiers

#### AGRIAIR® PURIFIERS SEEK & DESTROY

- 99%** surface bacteria, virus, and microbes
- 99%** E-Coli and Salmonella
- 97%** airborne bacteria and mold spores
- 85%** odor and VOC reduction
